Jet Fuel MICROBIAL TESTING WEBINAR

HOSTED BY

Airlines for America

Dear Industry Colleagues,

A4A, IATA, and JIG invite you to attend a free Jet Fuel Microbial Testing Webinar. In this unprecedented period there is an increased risk of microbiological contamination in jet fuel. This unique webinar will allow attendees to learn the proper use of IATA recommended microbial testing kits. Each kit manufacturer will provide a simple "how-to" instruction, followed by a short Q&A.

Come see the right way to use jet fuel microbial test kits to get accurate results. The webinar will be offered at two times for your convenience; **both sessions will offer the same content**. Please use the links below to register for Session 1 or Session 2. This webinar is open to all interested parties; no invitation is required to register. Space is limited and is available on a first-come, first-served basis. All attendees must be registered by 8 June 2020 to attend.

Register Session 1

Tuesday, 9 June 2020

08:30 UTC

Duration: 2 hours 30 minutes

Register Session 2

Tuesday, 9 June 2020

15:00 UTC

Duration: 2 hours 30 minutes

Both sessions will offer the same content

Who Should Attend:

Personnel with aircraft fuel sampling and/or testing responsibilities
Personnel with jet fuel ground handling responsibilities
Anyone interested in proper use of jet fuel microbial contamination test kits

Webinar Agenda:

Fundamentals of Microbial Growth
Basic Principles of Proper Sampling for Microbial Contamination
How-to and Q&A of the each of the following IATA recommended test kits:

- HY-LiTE® Jet A1 Fuel Test
- Easicult TTC / Easicult M
- MicrobMonitor2
- FUELSTAT®

Please feel free to contact us as at ulloar@iata.org in case you have any questions or require support.
